Achievements and performance

Raising of support

As a Board, we were so thankful to all of our supporters who helped us raise all that was needed to carry out the desired projects in East Africa in the last year. Overall income increased by 13% on previous year which is an incredible achievement amidst a 'Cost of Living' crisis. We were delighted to be able to host fundraising events again such as coffee mornings and cycle events and we also saw a significant increase in funding from major donors and corporate donors.

Review of activities

The details below provide a summary of the work we do in each of our priority areas in East Africa due to the support from Fields of Life Trust Limited and other related parties. The trustees are delighted with the outcomes and impact of our work. In late 2021 we launched our new 5 year strategic plan which aims to double our impact. In this plan, we have identified 4 key priority areas in which we operate. These are Quality Education, Health and Wellbeing, Resilience and Livelihoods, and Institutional Growth and Development. For more details on all the activities achieved during the year under each key priority area, please see our annual report, which shall be released in Spring 2024.

Quality Education
The quality education program concentrates on improving the quality of education in the schools supported by Fields of Life through continuous professional support to the schools, the children, and communities around the schools. This priority area focusses on enhancing access to quality and equitable education for **73,816** marginalized and most vulnerable children and youth in East Africa by June 30, 2026. It aims at promoting early childhood development (ECD) and pre-school learning opportunities for 10,290 children at 49 Early Childhood Development Centres (ECDs); enhancing quality education for 63,126 children in 81 primary (53,460 children) and 9 secondary schools (9,666 children) and enhancing access to tertiary education for 400 of the most vulnerable students by June 2026.

Health and Wellbeing
This priority area promotes health and wellbeing of **240,960** marginalised and most vulnerable children/youth in school and other members of the community in East Africa by June 30, 2026. It aims at increasing access to safe and clean water for 225,840 marginalised and most vulnerable children/youth in school and other members of the community and improving Menstrual Hygiene Management for 12,179 adolescent girls.

Resilience and Livelihoods
This priority area focusses on enhancing livelihood resilience for **58,250** marginalised and most vulnerable youth/ children and women in East Africa by June 30,2026. It aims at enhancing access to vocational education/skills for 1,050 vulnerable youth; creating opportunities for 7,400 marginalised and most vulnerable youth/children and women to engage in gainful and descent employment for economic self-reliance. Increasing agricultural production and productivity for 37,800 children in 90 schools and 15,000 people from 3,000 households.

Institutional Growth and Development
This priority area focusses on strengthening the institutional capacity of Fields of Life for efficient and effective program operations by June 30, 2026. It aims at strengthening internal processes/systems, systems for efficiency and effectiveness; strengthening partnerships, mutual engagement and strengthening Corporate Governance.

Teams
It was wonderful to be able to restart Short-Term Mission Teams visiting different supported schools across Uganda this financial year, which had been stopped due to Covid-19 the last 3 years. Several teams travelled out in the Spring of 2023.

Financial review
Income and expenditure

Income for the year was €592,194 compared to 2022 at €523,867. Total expenditure increased to €615,642 (2022: €524,665) and gross expenditure on Charitable Activities increased to €577,431 (2022: €492,580). The amount of money spent on charitable activities represented 85% (2022: 80%) of total expenditure.

Fields of Life has received support from Irish Aid (part of the Department for Foreign Affairs– DFA) for a number of years. Since 2019, at the request of Irish Aid/ DFA, this funding is channelled through Fields of Life Trust (Northern Ireland).

All restricted funds held by Fields of Life Trust Limited are used on projects in East Africa and the developing world. Where the funding is collected over more than one accounting year, it is common for the initial year to have a surplus and the subsequent year to show a deficit. The net position for each specific fund across multiple accounting periods will be zero. (i.e. any deficit is met from accumulated fund balances).

Detailed day to day management of the charity endeavours to keep the costs as low as possible without compromising the output and quality of the activities.

Reserves

The Board of Trustees reviews the reserves on a quarterly basis. Three to twelve months operational costs are held in reserves. Only funds that have been raised are sent to Fields of Life Uganda, to be utilised in the project areas. There is therefore little risk of the fund running into deficit. There are two categories of reserves: restricted and unrestricted funds.

Restricted funds are funds subject to specific conditions imposed by donors. At the end of the year the total restricted funds were €258,087 (2022: €269,714).

Unrestricted funds at year end were €74,917 (2022: €86,738).

A formal process is in place which includes the development and annual review of a comprehensive risk register identifying and putting appropriate control measures in place for the management of key organisational risks.

The Directors have identified the severity of the risks to which the charity is exposed. They have also considered the likelihood of those risks. The steps taken to mitigate those risks have been assessed in the light of both the severity and the likelihood of each risk.

The specific risks identified as moderate or severe and possible over the next five years are:

- Accident involving FOL staff or volunteer while in East Africa;
- Child protection/safeguarding issues in Fields of Life supported projects in East Africa;
- Loss of key personnel;
- Inability to take advantage of a key funding opportunity;
- Unintentional illegal acts relating to data protection, safeguarding, charity and employment law;
- Unexpected failure or breach of IT systems and support services.

The risks are assessed on the likelihood of occurrence and the subsequent potential impact on the organisation should they occur. The risk register is subject to annual review by the Board of Directors and more frequently, if required. It was formally reviewed in May 2023 and key mitigation measures in place include:

- Formal agendas for regular Board meetings with minutes recorded and action points noted;
- Strategic planning (FOL movement wide) every 3-5 years from which operational work plans are developed;
- Robust financial management including budgeting and presentation of management accounts to Board meetings, scrutinised against agreed budgets;

1.5 Expenditure

Expenditure is recognised once there is a legal or constructive obligation to transfer economic benefit to a third party, it is probable that a transfer of economic benefits will be required in settlement, and the amount of the obligation can be measured reliably.

Expenditure is classified by activity. The costs of each activity are made up of the total of direct costs and shared costs, including support costs involved in undertaking each activity. Direct costs attributable to a single activity are allocated directly to that activity. Shared costs which contribute to more than one activity and support costs which are not attributable to a single activity are apportioned between those activities on a basis consistent with the use of resources. Central staff costs are allocated on the basis of time spent, and depreciation charges are allocated on the portion of the asset's use.

Irrecoverable VAT is charged as a cost against the activity for which the expenditure was incurred.

1.6 Tangible fixed assets

Tangible fixed assets are initially measured at cost and subsequently measured at cost or valuation, net of depreciation and any impairment losses.

Depreciation is recognised so as to write off the cost or valuation of assets less their residual values over their useful lives on the following bases:

Fixtures and fittings	20% Reducing balance
Website	25% Straight Line
Office Equipment	33.3% Straight Line

The gain or loss arising on the disposal of an asset is determined as the difference between the sale proceeds and the carrying value of the asset, and is recognised in the statement of financial activities.

Financial assets and liabilities are offset, with the net amounts presented in the financial statements, when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or to realise the asset and settle the liability simultaneously.

Basic financial assets

Basic financial assets, which include debtors and cash and bank balances, are initially measured at transaction price including transaction costs and are subsequently carried at amortised cost using the effective interest method unless the arrangement constitutes a financing transaction, where the transaction is measured at the present value of the future receipts discounted at a market rate of interest. Financial assets classified as receivable within one year are not amortised.

Debt instruments are subsequently carried at amortised cost, using the effective interest rate method.

Trade creditors are obligations to pay for goods or services that have been acquired in the ordinary course of operations from suppliers. Amounts payable are classified as current liabilities if payment is due within one year or less. If not, they are presented as non-current liabilities. Trade creditors are recognised initially at transaction price and subsequently measured at amortised cost using the effective interest method.

2 Critical accounting estimates and judgements

In the application of the Charity's accounting policies, the directors are required to make judgements, estimates and assumptions about the carrying amount of assets and liabilities that are not readily apparent from other sources. The estimates and associated assumptions are based on historical experience and other factors that are considered to be relevant. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised where the revision affects only that period, or in the period of the revision and future periods where the revision affects both current and future periods.

20 Contingent liability

Fields of life Trust Limited are currently the joint defendant in a personal injuries claim brought against them by an individual who was part of a mission trip to Uganda. The liability on this matter is uncertain due to the addition of a counter claim by Fields of Life against the insurance broker at the time and the ongoing case itself.

At this stage there is no certainty around the outcome of the case and a potential liability. Fields of Life have engaged with senior counsel to defend the matter.
